SUMMARY

Software Engineer with 2 years of experience building scalable web applications and AI-powered solutions. Proven track record of improving application performance, optimizing backend systems, and delivering production-ready features while collaborating with cross-functional teams.

SKILLS

Language: JavaScript, TypeScript, Python
Frontend: React.js, Tailwind CSS, Redux, TanStack Query & Router, Next.js, Sanity CMS, Electron.js(basic)
Backend: Node.js, Express.js, Nest.js, FastAPI, Cloudinary
Databases: MongoDB, PostgreSQL, MySQL
Cloud & DevOps: GCP, AWS, Docker, CI/CD pipelines, Vercel
Tools: Git, GitHub, Gitlab, Figma, Claude, Cursor, Codex
Others: REST APIs, WebSockets, SEO Optimization, System Design Fundamentals, RBAC, Performance Optimization, Scrum, Agile

EXPERIENCE

SEAFLUX Ahmedabad, Gujarat, Onsite
Software Engineer Nov 2024 – Present

- **Leading end-to-end full-stack development**, optimizing frontend performance and backend APIs to reduce response time by 40% and improve scalability.
- Collaborating with **cross-functional teams** to deliver **10+** production features, translating business requirements into scalable solutions.
- Built and managed **conversational AI solutions**, automating workflows and improving response handling efficiency by 35% through optimized conversation design.
- **Mentoring interns** through code reviews, technical guidance, and foundational skills training.

DIONEAPPS PVT. LTD. Ahmedabad, Gujarat, Onsite
Frontend Developer Jan 2024 – Oct 2024

- Improved mobile responsiveness, increasing mobile traffic by 40% and reducing bounce rate by 25%.
- Integrated **Sanity CMS**, improving real-time content update efficiency by **30%**.
- Leveraged Git for version control and used **Electron.js** for cross-platform desktop applications.

PROJECTS

FINTRACK AI: React.js, Tanstack Query & Router, Redux ToolKit, FastAPI, PostgreSQL

- Developed an **end to end smart expense tracking platform** with transaction management, expense categorization, and interactive dashboards, improving tracking efficiency by **25%**.
- Built secure RESTful APIs using FastAPI, optimized database queries, and implemented authentication for reliable data management.
- Engineered features such as monthly reports, budget alerts, and AI-driven spending insights, enhancing financial visibility by 30%.

INVOICE FLOW: React.js, Tanstack Query & Router, Redux ToolKit, Node.js, express.js, PostgreSQL

- Engineered a scalable **multi-tenant billing system** allowing multiple organizations to manage isolated data, generate invoices, and handle client transactions securely.
- Designed a modular backend architecture with role-based access control and automated email notifications, reducing manual follow-ups by 40%.
- Implemented invoice lifecycle management including **PDF generation, payment tracking, and overdue alerts**, accelerating billing workflows by **30%**.

CHATBOT: HTML, CSS, JavaScript, DialogFlow CX

- Led the frontend development for a **conversational chatbot application** using Vanilla JS and Dialogflow CX.
- Fully customized the chatbot UI, improving user interaction and session engagement by 30%
- Integrated Dialogflow CX APIs hosted on Google Cloud Platform, enabling intelligent, context-aware conversations with **95% intent-matching accuracy**.
- Designed **sequence diagrams and ER diagrams**, improving system clarity and reducing development rework by **20%**.

EDUCATION

LDRP INSTITUTE OF TECHNOLOGY Gandhinagar, Gujarat
Bachelor of Technology: Information Technology - CGPA: 8.28 Jun 2020 – Apr 2024
